

Dear families,

All of us at UP Education Network are sending well wishes your way for a safe and healthy break from school.

To continue learning while your scholar is away from school we have compiled resources and work. The resources provided should, when spaced out, provide students with learning activities for about 5 weeks.

Your school likely provided some guidance on how to engage with these materials. Below find simplified guidance that can be applied to any UP school.

Students in grades K1 - K2

- Read with your scholar for about 15 minutes a day
- Do about 15 minutes a day of home learning with your scholar, focusing on completing some math and some literacy work
- If you have access to technology, see guidance from your school about additional virtual work

Students in grades 1 - 2

- Read with your scholar, or ensure that they read, for about 20 minutes a day
- Do about 20 - 30 minutes a day of home learning with your scholar, focusing on completing some math and some literacy work
- If you have access to technology, see guidance from your school about additional virtual work

Students in grades 3 - 5

- Scholars should read for 30 minutes a day
- Scholars should complete about 30 - 40 minutes a day of home learning, balancing this time across subjects
- If you have access to technology, see guidance from your school about additional virtual work

Students in grades 6 - 8

- Scholars should read for 30 minutes a day at minimum
- Scholars should complete about 45 - 60 minutes a day of home learning, balancing this time across subjects
- If you have access to technology, see guidance from your school about additional virtual work
